

TEE-TOTALERS ATTENTION!—You will find a fit subject for your benevolent efforts in a miserable fellow that has taken a great fancy of late to visit our premises at night, with the kind intention no doubt, of charming us with the melody of his voice. The last time his song, which was very prolonged, very loud, and very inharmonious, was as follows. "I never shall, n-ev-er shall, never shall," so on ad infinitum, which done he made us a speech, as follows:—"Sir! The Queen of E-e-ng-land ha-has ordered the Public Government Press—Sir, to be sold at auction, Sir—at auction, Sir!—(with much emphasis.) Co-Co-Cook's discovery was right-eous, Sir! Sho-o-o me dead with a pistol," and so on, until overpowered with either eloquence or liquor his voice died away amid a chorus of hic-cups and mutterings. Save him if you can, at all events save him from coming again.

ANOTHER RICHMOND IN THE FIELD.—The first number of the Hawaiian Cascade and Miscellany, printed at the Mission Press, in this town has been received. It is half the size of the Friend, and comes out most vigorously in the cause of tee-totalism. Success to it, and we have no doubt from the zeal displayed in its columns for the good cause that success will attend it. May its light be never less. The Temperance Advocate and Seamen's Friend appears to be retiring from the field, and bequeathing its mantle to the new advocate. We have noticed that the Friend of late has been dropping temperance and bestowing its attention more to general news and miscellaneous matter. The appearance of this new champion explains it. A number of requests have been made us of late for the insertion of humorous pieces, amusing stories and the like. Whenever other matter will allow, we will gladly comply, but an official paper is necessarily obliged to confine itself mainly to weightier matter. Therefore, if the Friend will devote its columns to the more pleasing topics of belles-letters, temperance, politics and literature will each have an organ, and the desires of the public be gratified. What say you, brother editor?

HON G. P. Judd, Secretary of State, visited the U. S. Ship Warren on the 9th., and was received with a salute of 17 guns. The same day he sailed in His Majesty's schooner Victoria for Kauai.

By the Julia from California we learn that the past season has been one of severe drought, and but few cattle have been killed, the proprietors refusing to slaughter on account of the leanness of the animals. Those that have been killed, averaged but two arrobas of tallow. Corn, beans and wheat are extremely scarce. No rain has fallen since January, but the coming winter promises abundance and to be severe. A heavy gale from the S. E. occurred along the coast in August, in which the Don Quixotte of this port, lying in Santa Barbara, dragged her anchors high into shore, a fluke of her best bower having been broken. Had the gale continued half an hour longer she would have gone ashore. Ships Sterling and Admittance of Boston lying at St. Louis, were also in imminent danger; 17 trading vessels have been on the coast this season, and the country is overstocked with goods. When the Julia Ann left, a troublesome and somewhat dangerous influenza was prevailing extensively.

By the brig Ontario, which arrived on the 13th. from Tahiti, whence she sailed on the 26th. ult., we gather the following items:—
H. B. M. Consul General and Governor Bruat were understood to be on the most friendly terms, but it was not expected that the Consul General would leave till after the arrival of the new French Admiral, and the completion of the arrangement for the restoration of Queen Pomare to her rights as an independent Sovereign under the protectorate.

Governor Bruat had sent the steamer Phae-

ton to Raiatea with letters to Queen Pomare inviting her to return to Tahiti, but she removed into the interior, and refused to receive any communications from the French Governor, till the definite orders should arrive from Europe.

H. B. M. Consul General had proceeded in the steamer Salamander to pay Her Majesty a visit at Raiatea, and had not returned on the 26th. October. It was hoped that his interview would have much effect in reconciling the Queen to the foreign authorities, and the resumption of her Sovereignty under the protectorate.

The French Corvette L'Ariane, arrived at Tahiti on the 13th. September, having left Brest on the 31st. May.

By the late news from Europe, it appears that Mr. Pritchard, is to return as H. B. M. Consul to the Navigator Islands, and that a new Consul is to be appointed for the Society Islands.

It also appears that Mr. Moreanhaut has been removed by the Foreign Government.

SAMUEL BLACKLER, Esq., U. S. Consul at Tahiti, died at T. about Oct. 1.

APPOINTMENT

By His Excellency, the Governor of Oahu.

JOHN RICORD, Notary Public for the town of Honolulu.

TO CORRESPONDENTS.—"Emily Lovetalk" is welcome. We like her candor, and she shall have room in our next.

"A's poetry," although bombastic, coming directly even from good humor, indicates just knowledge. Lopping much nonsense off, poetry quickens reason, separates trash, unfolds value, which excuses young zeal, &c.

"Quiddle" or "Quibble"—we can't make out which—need not come again.

We shall be very glad to hear from our Maui correspondent,—"Some account of the results of my experiment." Also, upon the other matter which he has in hand.

MONTEREY, CALIFORNIA, DEALER IN FOREIGN MERCHANDISE AND CALIFORNIA PRODUCE.

WHALE-SHIPS supplied with PROVISIONS on the most reasonable terms of the country, for Bills on the United States, when the captain may not have such goods as the government will permit him to sell.

The Commerce of California is increasing; the Farmers preparing to furnish Provisions in more abundance; the Port Charges on a whale-ship but Four Dollars; Wood and Water can be obtained with more ease than in former years, as wells are being built near the beach to conduct the water to the boats. The climate is one of the best known, it being very uncommon for a ship to go to sea with sick men. Ships can be recruited, and provisions taken on board, in twelve or fifteen days—according to the season; and Letters are often sent to the United States in sixty to sixty-five days, via Mazatlan and Vera Cruz. s21
